

## 6 Inch Doll House Templates

I have updated the 6 inch doll house plans to include full size templates.

Because I only have an A4 printer, I have to make tiled prints and join them up.

If you have access to a large format printer, use the contact me form below and I will send you a copy of the plans.

### Links

Here are a few links that may help you with the construction of this project.

Click on the links to go back to [wooden-toy-plans.com](http://wooden-toy-plans.com)

If that does not work, copy and paste the text into your favourite browser.

Follow the building guide online:
